

Staff Development and Training Audiovisual Collection

The State Library maintains a collection of videocassette topics on management that support the training needs of state agency personnel. Special policies apply to their use. In order for state employees to use management videotapes for specific programs, these items must be reserved in advance.

BORROWING RULES

Videotapes must be reserved in advance. The Library requires 24-hour advance notice, although early booking is strongly recommended, particularly with popular titles. Staff Development and Training videos may be borrowed by South Carolina state employees who possess a State Library borrower's card and have a good borrowing record. State employees are requested to fill out a booking form to reserve videos. A limit of two videotapes may be borrowed at the same time. Booking forms are available at the library's main desk, or they may be requested from Audiovisual Services, 803-734-8026.

Requestors will be contacted to confirm video pickup dates or to inform them of schedule conflicts. Videos are available for pickup at the library's main desk by noon on the day preceding their specified show date. Videos are loaned for a 7-day period. Since they are heavily used by state government personnel, it is very important that they be returned by their due date so that others may use them.

The videotapes in this collection are usually quite expensive, so borrowers are urged to exercise care in using them. As with other library materials, the borrower assumes responsibility for any damage or loss that occurs.
